MEET THE EVOLOSHEN AI TEAM

AI that works, without breaking your culture.

Where AI strategy meets culture, leadership and real results.

12 certified AI consultants

7 countries

3 continents

WHY THIS TEAM EXISTS

AI is not a technology problem. It's a leadership one.

WHAT MOST ORGANIZATIONS FOCUS ON

Tools
Automation
Speed

WHAT ACTUALLY DECIDES SUCCESS

Trust

Without it, teams resist or misuse AI, leaders overcontrol or hesitate, and adoption stalls.

We've seen this pattern across industries, leadership teams and transformation efforts. That's why this team exists.

We bring together AI expertise, business strategy and human understanding, so organizations can adopt AI in a way that actually works.

ONE STANDARD ACROSS THE TEAM

Depth of expertise. Consistency of execution.

Every Evoloshen AI consultant is certified across three core areas, so whether you work with one consultant or many, you get the same thinking, approach and quality of delivery.

01
AI Consulting

02
AI Implementation

03
Data Science

WHERE WE CREATE IMPACT

- **Leadership teams building AI strategy**
- **Operations looking to automate and scale**
- **Sales and marketing teams using AI for growth**
- **HR and people leaders managing change and adoption**
- **Organizations aligning AI with their culture**
- **We meet you where you are and help you move forward with clarity.**

HOW WE WORK

We don't start with tools. We start with your people.

WHAT YOU CAN EXPECT

- Implement AI without breaking trust or culture
- Identify high-impact opportunities, not just tools
- Equip leaders and teams to actually use AI
- Turn AI into measurable business outcomes
- Build capability that lasts beyond the first rollout

AI works best when people trust it and know how to use it.

GROUNDED IN THE CARE PRINCIPLES

C

Connection

AI adoption starts with people: how they connect, show compassion and find the courage to change.

A

Authenticity

Leaders who are accountable, appreciative and transparent build the trust that makes AI stick.

R

Respect

Recognition, respect and resilience separate organizations that sustain AI adoption from those that stall.

E

Evolution

Organizations grow with AI when their people stay engaged and commit to continuous evolution.

LEADERSHIP

The team leading the work

All three are Certified AI Consultants.

Karin Volo SWEDEN · USA

LUNCH & LEARNS AND PANEL DISCUSSIONS

Keep your people up to speed on AI, with our experts in the room.

AI is changing so fast that even the most capable teams struggle to keep up. Our team brings the latest thinking to you through an insightful Lunch & Learn or a lively panel discussion, shaped around your people and the questions they are really asking.

WHAT YOUR PEOPLE GET

- A clear, current picture of what is changing in AI and what it means for their work
- Real expertise from across our team, matched to your goals
- Practical conversations that build confidence in how your company uses AI
- In person or virtual, for one team or your whole leadership group

It is also a great way to get to know our team before a bigger project.

TOPICS OUR EXPERTS BRING TO THE TABLE

Leading people through AI change without losing trust

The human side of AI: identity, power and decisions

AI strategy, roadmaps and real business outcomes

AI automation for operations and logistics

Data, cybersecurity and responsible AI adoption

Using AI to save time and scale smarter

LET'S TALK

AI should work for people, not the other way around.

The future of work isn't just smarter systems. It's better decisions, stronger teams and real impact that lasts. When you're ready to explore what AI can do for your organization, we'd love to be part of that conversation.
